On Friday, October 26, 2018 the projects Lanserhof Lans, Lanserhof Tegernsee and the Grayshott Health Spa, which have been designed by ingenhoven architects, were awarded with five awards. The

World Spa Awards Gala Ceremony 2018 was held at the "St. Regis Maldives Vommuli Resort " in the Maldives.

After numerous awards in this successful year, the houses in Lans and Tegernsee were also able to secure top spots at this year's World Spa Awards ceremony. This makes the Lanserhof the most awarded medical resort in the world. For the fourth time in a row, the Lanserhof Tegernsee has taken the top spot in the category "World's Best Medical Spa", the Lanserhof Lans convinced the worldwide jury with "World's Best Spa Design".

The awards at the World Spa Awards mark the completion of a successful year for the projects designed by ingenhoven architects: The locations in Lans and on the Tegernsee could be ranked second in the "The World's Top 100" list by Condé Nast Traveler 2nd in 2018 the Greek Islands and the Condé Nast Traveler Reader's Award. This was followed by the Gala Spa Award, the European Health & Spa Award and the Relax Guide, where both Tegernsee and Lans were awarded with four lilies and 20 points in an independent review.

Another achievement is Grayshott Health Spa's award for "England's Best Wellness Retreat 2018". The house is one of the UK's leading addresses for health and wellbeing and has been co-owned by the Lanserhof Group since 2017.

In 2014, ingenhoven architects had completed Lanserhof Tegernsee, which was followed in 2017 by the Lanserhof at Lans in Austria. ingenhoven architects are also currently planning a Lanserhof on Sylt, an inner-city Lanserhof in London and a Lanserhof in Grayshott.
