Silo, Plange Mühle Campus, Düsseldorf

The "Holzsilo, Plange Mühle Campus" project was recognized by the Bund Deutscher Architekten (BDA) Düsseldorf as part of the award ceremony for the "Auszeichnung guter Bauten 2017" on 14 December in the "Stadtmuseum Düsseldorf". An accompanying exhibition with all submitted projects will be shown until 2 January 2018 in the "Stadtmuseum Düsseldorf", Berger Allee 2.

ingenhoven architects completed the conversion and restoration of a listed former grain silo on the Plange Mühle Campus in Düsseldorf in 2016. The 1906 grain silo is transformed into a six story loft building, creating new work spaces for the commercial operations of Fashion and Media Industries. The renovation of the neighbouring silo constructed in concrete is planned for completion in 2019.
